

HackYourFuture

HackYourFuture (HYF) is evolving its educational model to better align with changes in the tech industry. The new program will feature a shared **Core Program** that provides essential digital and professional skills, followed by **Specialised Tracks** that allow learners to focus on specific areas of the tech sector.

This redesigned structure aims to create a more flexible and scalable learning journey, strengthening participants' employability while maintaining HYF's inclusive and mission-driven approach.
